Solicitation to Promote Maximum Enrollment in A Wide Range of Health Insurance Programs: Communications Support for the Outreach & Education Campaign Plan and Assistants Program

Release: December 27, 2011

The Affordable Care Act provides California with the opportunity to significantly reduce the millions of uninsured in California and to transform the health insurance marketplace. Eligible uninsured individuals must understand their health care coverage options and be able to easily enroll and retain coverage. This can be achieved with meaningful outreach and education to California's diverse populations – a “no wrong door” enrollment approach where public and private programs are easy for consumers to understand and seamlessly navigate. The promotion of a “culture of coverage” in California can convey the importance that all individuals and families can obtain coverage to protect themselves from unexpected expense and to improve their health status. Without an effective outreach campaign, consumers seeking health insurance may not know about the affordable coverage programs for which they are eligible.

The California Health Benefit Exchange, Department of Health Care Services (DHCS), and the Managed Risk Medical Insurance Board (MRMIB) have been working closely together to collaborate on the planning and implementation of the Affordable Care Act and the important changes that it will bring. This collaboration includes developing a marketing and outreach plan to inform Californians about the full range of affordable health coverage that will be available to millions as of January 2014 and support their enrollment into health care programs.

In our continued efforts to successfully implement the Affordable Care Act, we are pleased to announce the release of this solicitation for the following services:

- Development of a statewide marketing, outreach and education strategy and plan to reduce the number of uninsured Californians by:
 - ✓ Ensuring eligible individuals are aware of, their options for subsidized and unsubsidized coverage through the Exchange, Medi-Cal and Healthy Families programs;
 - ✓ Assisting individuals with applying for and retaining coverage through appropriate and eligible program options

- ✓ As part of a comprehensive plan, developing outreach and communication strategies that are consumer-friendly, culturally and linguistically appropriate, and use targeted media and other strategies to reach the large and diverse population of Californians.
- Initial marketing and communications support, branding and design for the California Health Benefit Exchange and its programs to be coordinated with the overall outreach theme.
- Development of a plan for implementation of an Assistants Program.

We are committed in seeking broad stakeholder input to obtain their suggestions on how best to communicate and promote the availability of the new health care coverage options. Questions that will be asked include whether the state should create a single name or identifier for all public programs. All of the input gathered will be used by the state and its selected vendor to shape the communications, outreach and education plan, as well as help in the design of the Assistants Program.

This is an exciting and important opportunity to help millions of individuals and families obtain and retain affordable health care coverage in California.

**California Health Benefit Exchange
Contract Solicitation and Model Contract – HBEX2
Communications Support for the Outreach & Education Campaign Plan
AND
Assisters Program
Under the Level 1 Establishment Grant**

1. INTRODUCTION:

This notice provides important information regarding the California Health Benefit Exchange, Department of Health Care Services, and Managed Risk Medical Insurance Boards (MRMIB) interest in and selection of a Contractor who shall provide consulting services towards the development of a Communication, Marketing, Outreach and Education Campaign Plan. The Contractor will perform highly specialized consulting services in the areas of:

- Developing and designing statewide comprehensive marketing, outreach and education campaign to promote health insurance programs that will be available in 2014 which are administered by the Department of Health Care Services and the Managed Risk Medical Insurance Board and the Health Benefit Exchange (e.g., Medi-Cal, Health Families, and Access for Infants & Mothers Program, and the Exchange programs). The campaigns shall target California's diverse population, such as:
 - ✓ Individuals in diverse racial, ethnic and cultural groups;
 - ✓ Monolingual, non-English speaking, or limited-English proficiency populations – where the campaigns must be designed and developed in a manner in which they can be successfully implemented in multiple languages; and
 - ✓ Low income and underserved populations.
- Developing and designing initial branding and messaging for the Exchange as an entity and implementing its launch;
- Identifying, providing and implementing immediate and near-term support and assistance to the Exchange with communication and media activities;
- Developing and designing the Assisters Program that will provide support for enrollment, retention and use of coverage; and
- Assisting the Exchange with the development of its Level II Grant Application with respect to the longer term needs for communications, marketing, and outreach support.

The consulting services being procured through this solicitation are highly technical and complex. Given the statement of work which is broad in its statewide outreach and education campaign and the diversity of the target populations, vendors should consider establishing partnerships with other entities who are experts and have experience in specialized areas. For example, the statement of work includes the design of comprehensive outreach and education campaign and the development of a plan for the

Individual Exchange's Assisters Program. While the Assisters Program may be a related component of the outreach and education strategies, the development of the Assisters Program's functions are uniquely distinctive compared to the design and development of statewide outreach and education campaign.

The services provided in the Model Contract are important to achieve the objectives California is pursuing in implementing the reforms enacted in the Affordable Care Act. These services are supported by the Exchange's Level 1 Establishment Grant and are needed as the Exchange, with its partners, moves towards full implementation of the Act.

Proposers are invited to review and respond to this solicitation. The term "proposer" and "vendor" shall be used interchangeably within this solicitation document. To submit a proposal to provide consulting services, as set forth in the Model Contract's Exhibit A, Statement of Work, proposers must:

- Comply with the instructions contained in this document;
- Meet the minimum qualification requirements;
- Comply with and propose an approach to the basic requirements specified in the Model Contract's, Exhibit A, Statement of Work; and
- Agree to the contract terms and conditions which are set forth in the Model Contract's Exhibits B, C, D, and E.

Please read this document carefully. Make sure you respond to the solicitation by the due date. **Please refer to the "Key Action Dates" shown below in Section 3.**

4. **BACKGROUND:**

Soon after the passage of national health care reform through the Patient Protection and Affordable Care Act of 2010 (the "Affordable Care Act" or ACA), California initiated a multi-agency, coordinated effort to actively implement its provisions. As existing agencies within the state government began coordinated planning to implement the requirements of the Act and to take advantage of the opportunities it offers, California also enacted the first state legislation to establish a qualified health benefit exchange. (Chapter 655, Statutes of 2010-Perez and Chapter 659, Statutes of 2010-Alquist.) The California state law is referred to as the California Patient Protection and Affordable Care Act (CA-ACA).

Starting in 2014, the California Health Benefit Exchange together with the Department of Health Care Services (DHCS) and the Managed Risk Medical Insurance (MRMIB) will begin offering a range of health care coverage opportunities throughout California that will make it easier for individuals to afford health coverage. Each of these organizations has an important role to play in implementing the health care coverage expansions offered by the Affordable Care Act:

- DHCS oversees and administers the California's Medicaid Program (Medi-Cal) which will expand its pool of eligibles by changing income definitions and other eligibility rules and streamlining application processes;
- The Managed Risk Medical Insurance Board oversees and administers the California's Children's Health Insurance Program (Healthy Families), Access for Infants & Mothers (AIM) Program, and both the state and ACA funded high risk pools (Major Risk Medical Insurance Program and Pre-Existing Condition Insurance Plan), which will experience similar changes in eligibility rules and application processes; and
- The Health Benefit Exchange will offer subsidized health care coverage to individuals and families with incomes above the upper limits for the programs offered by DHCS and MRMIB, but will also offer non-subsidized health care coverage to individuals and the employees of small businesses who enroll in the Exchange's health plan offerings.

The joint mission of these three organizations, referred to as the project sponsors, is to reduce the number of uninsured Californians by creating an organized, transparent marketplace for Californians to purchase affordable, quality health care coverage to claim available federal tax credits and cost-sharing subsidies, and to meet the personal responsibility requirements imposed under the federal act (ACA). This mission needs to be promoted by a well designed communication effort to get the word out to the public about the new coverage opportunities that are available, the improved methods that will be in place to facilitate applying for and enrolling in coverage, and the obligation that many Californians have to obtain coverage for themselves and their families.

To advance this mission, the public also needs to have a better understanding of the Exchange. The Exchange as a new institution needs to develop an identity in the public's mind where it is seen, together with DHCS and MRMIB, as a trusted source of information about health coverage and a convenient place to compare offerings and purchase coverage.

The Exchange is currently funded through a \$39 million federal Level I Establishment Grant for administrative and consultant services through August 14, 2012. During the Level I Grant, the Exchange will conduct planning, research and early implementation activities revolving around a range of Core Areas set forth by the U.S. Department of Health and Human Services in the Level I Grant Establishment Grant. This solicitation focuses on two specific Core Areas:

1. Core Area X (Consumer Assistance for Individuals and Small Businesses); and
2. Core Area XI (Business Operations).

The Exchange is seeking a highly qualified consulting firm to assist staff in the development and design of:

- A comprehensive and effective short-term and long-term comprehensive communication plan for a statewide outreach and education campaign to establish an institutional identity for the Exchange and to promote the availability of public health coverage programs; and
- A comprehensive and effective plan for the development of the Assisters Program.

The goals of this project will be to accomplish the following:

- Design and develop a plan for a comprehensive statewide communications, marketing, outreach and education campaign to promote affordable health insurance programs which are administered by the Department of Health Care Services (e.g., Medi-Cal), the Managed Risk Medical Insurance Board (e.g. Health Families, and Access for Infants & Mothers Program) and the Health Benefit Exchange. The campaign will identify short-term (pre-operational) and long-term outreach, education and marketing strategies, including assessing and recommending different promotional activities of communication for the various diverse target audiences;

- Conduct focus group testing to ensure that the vendor proposed comprehensive statewide marketing, outreach and education plan shall be effective in educating the target populations about the new health coverage programs that will be available;
- Inventory and review the existing health insurance distribution systems, including identifying and understanding the current role of agents and brokers, application assisters, and other entities assisting individuals obtain and enroll in state affordable health insurance programs and private health care coverage;
- Develop and design initial branding and messaging for the Exchange as an entity and trusted source for health plan information and implement its launch;
- Identify, provide and implement immediate and near-term support and assistance to the Exchange with communication and media activities;
- Design and develop a comprehensive Assisters Program Plan (including identifying training curriculum requirements), in order to conduct enrollment, outreach and education efforts for the promoting state affordable health insurance programs;
- Develop an implementation timeline, identify funding necessary to support implementation of the Plan actions identified for marketing, outreach and education campaign and Individual Exchange's Assisters Program; and
- Prepare supporting documentation for the Level II Grant Application process; and
- Develop a model contract solicitation document, in order for the Exchange in collaboration with the Department of Health Care Services and Managed Risk Medical Insurance Board, to competitively procure services from a vendor to implement the comprehensive statewide outreach and education activities and campaign.

If directed by the Exchange and mutually agreed upon by the Contractor, and subject to Board approval, the Exchange may amend the Agreement's Statement of Work (Exhibit A) and Budget Detail and Payment Provisions (Exhibit B) to procure additional services. The additional services may include the actual implementation of the project sponsors' approved short-term and long-term comprehensive statewide marketing, outreach and education campaigns.

It is critical that these goals are achieved, in order to achieve the objectives California is pursuing in implementing the reforms enacted in the Affordable Care Act. The Contractor's proposed role is defined by the Model Contract's Exhibit A, Statement of Work. However, under the Exchange's contract solicitation process, **proposers are allowed to offer alternative approaches and improvements to the proposed Statement of Work** in achieving the project sponsors' overall goal of developing and designing the comprehensive statewide marketing, outreach and education campaigns and Assisters Program.

 3. California Patient Protection and Affordable Care Act (CA-ACA), which is the state's enabling legislation (Chapters 655 and 659, Statutes of 2010);
 4. California's Level I Establishment Grant Application;
 5. Proposed federal regulations on:
 - a) Becoming a federally qualified Exchange (Notice of Proposed Rulemaking CMS-9989-P) - 45 CFR, Sections 155.205(e), 155.210 and 155.220;

Exhibit A (Standard Agreement)

II. Branding and Design:

- A. The Contractor shall collaborate with the project sponsors to develop and create the separate names, logos, and taglines for the Health Benefit Exchange and its offerings. The Contractor shall provide recommendations on various program names, logos, graphic elements, and taglines which identify the Exchange in a way that coordinates with the joint effort of the project sponsors to promote the enrollment of individuals and families into state affordable health insurance programs in California as determined in paragraph.
- B. The Contractor shall investigate the potential for coordination and/or integration of the program names, logos, graphic elements, and taglines among all state affordable health insurance programs, including offerings from the Exchange as well as Medi-Cal, Healthy Families, and the Access for Infants & Mothers (AIM) Program, etc. The Contractor shall explore the feasibility and provide recommendations on a single/common branding and messaging (e.g., collective program name, logo, graphic element, and tagline) for California's affordable health insurance programs.

The Contractor understands and acknowledges that consumers who apply for subsidized health care coverage through the Individual Exchange will first be evaluated for their eligibility under other state affordable health insurance programs, prior to them qualifying for a subsidy in the Individual Exchange. Consumers seeking affordable health care coverage will likely not know the program for which they are eligible. Therefore, it will be critical that the Exchange and other state affordable health insurance programs have a seamless and coherent message and branding.

- C. The Contractor understands and acknowledges that the branding of any program name, logo, graphic element, and tagline will be designed in a manner that shall be effectively used in multiple languages in order to reach the diverse targeted populations, as set forth in Exhibit A, Item IV.B.6, of this Agreement.
- D. The Contractor shall provide draft versions of the deliverables identified in Exhibit A, Item II, of this Agreement, to the Exchange by the due dates set forth below or within a timeframe as required and specified by the Exchange. All deliverables shall be reviewed and approved by the Exchange. In addition, the Contractor shall translate all media materials into other threshold languages as directed by the Exchange. Media materials shall include, but are not limited to, the following:

IV. Develop and Design a Comprehensive Statewide Marketing, Outreach & Education Campaign Plan:

A. Short-Term and Long-Term Statewide Campaigns:

The Contractor shall develop and design effective, comprehensive, short-term (pre-operational) and long-term statewide marketing, outreach and education campaigns to effectively and successfully **assist consumers to apply for, enroll and retain coverage** in state affordable health insurance programs (e.g., Medi-Cal, Healthy Families, and Access for Infants & Mothers [AIM] Program, and the Exchange's individual and Small Employer Health Options Program). The campaigns shall take the approach determined by the project sponsors based on options and recommendations presented in Item II.B above.

Consumers seeking health insurance may not know about the different affordable health insurance programs for which they are eligible. The "no wrong door" enrollment vision and a single application will require outreach and communication campaigns that address affordable coverage broadly for many diverse populations. Moreover, families may have members who are eligible for different programs or whose eligibility changes during a year and may move between the Exchange, Medi-Cal and Healthy Families programs. The outreach campaigns must be designed to promote seamlessness and coherency between the Exchange and other state

Exhibit A (Standard Agreement)

affordable health insurance programs. Eligible individuals must understand their coverage options and must be able to enroll and retain coverage easily, and state health insurance programs must be easy to navigate and understand.

The statewide marketing, outreach and education campaigns shall identify comprehensive strategies customized for each state region and targeted population (which is recommended by the Contractor and approved by the Exchange) to facilitate maximum enrollment of eligible individuals, families, and small business employer groups into the Exchange's programs or other state affordable health insurance programs. When developing and designing the statewide outreach campaigns, the Contractor shall, at a minimum, perform the tasks and services as set forth in Exhibit A, Item IV, of this Agreement.

The campaign should consider the timing of outreach and education activities required to promote public awareness regarding the availability of the new Individual Exchange and SHOP programs. In addition, the outreach and education strategies consider the timing of efforts to promote public awareness regarding the availability of existing state affordable health insurance programs in California. The implementation of outreach and education strategies shall occur in advance of the 2013 Exchange Open Enrollment Period and shall include outreach strategies that need to be accomplished through December 31, 2013.

The long-term strategies shall focus on outreach and education activities (which must occur on and after January 1, 2014) to continuously promote public awareness about the all state affordable health insurance programs as well as the availability of non-subsidized coverage and the requirement to be covered. The long-term strategies shall promote the need to successfully enroll qualified individuals, families, and small employer groups and retain enrollment of existing enrollees in health care programs.

B. Short-Term and Long-Term Framework, Goals and Objectives for Statewide Campaign Strategies:

1. The Contractor shall assess, identify and define the framework, goals and objectives of the short-term and long-term strategies to implement a comprehensive statewide marketing, outreach and education campaigns.  - b) Reducing the number of uninsured individuals in California;

Exhibit A (Standard Agreement)

- d) Developing outreach strategies that establish trust and confidence between the target populations and the programs offering affordable health coverage. For example, individuals, families, and small employer groups must perceive the application and enrollment processes as being a positive opportunity for them to obtain comprehensive health care benefits. In addition, it is important that individuals, families, and small employer groups understand that their personal information will be protected and stored in a secured fashion;
 - e) Developing outreach strategies that can be used by local trusted organizations to educate and inform individuals and families about the opportunity to obtain comprehensive health care benefits through the Exchange and other state affordable health insurance programs;
 - f) Developing proposed strategies that are both successful and cost-effective, given the level of Exchange funding available for marketing, outreach and education, and the challenges associated with designing communications and outreach strategies in a state as diverse and large as California; and
 - g) Identifying other goals and objectives which need to be considered by the Exchange to support the project sponsors' common mission and goals.
2. The Contractor shall identify, propose and recommend strategies to effectively collaborate and establish interactive, full partnerships with other public and private sector entities, which shall be approved by the project sponsors. The entities may be organizations which are recommended by the Contractor, as set forth in Exhibit A, Item IV.E.3 or organizations described in Exhibit A, Item IV.E.4, of this Agreement. The Contractor, at a minimum, shall:
- a) Identify shared common goals that the project sponsors have with the public and private sector entities;

Exhibit A (Standard Agreement)

6. The Contractor shall assess and identify the specific target audiences and populations (including specific demographic information) for the comprehensive statewide marketing, outreach and education strategies for the short-term and long-term campaigns. The Contractor shall conduct market research to identify and determine target populations who are eligible for the state affordable health insurance programs, which include, but are not limited to, the following:
 - a) Individuals and families who meet the income eligibility standards for Exchange subsidy programs (e.g., premium tax credit and cost sharing reductions);
 - b) Individuals and families eligible for (but not enrolled in) state affordable health insurance programs, such as Medi-Cal, Healthy Families, and Access for Infants & Mothers (AIM) programs;
 - c) Individuals and small employer groups who are or have members who are of non-English speaking/monolingual or have limited-English proficiency;
 - d) Individuals in diverse racial, ethnic, and cultural groups in the state;
 - e) Individuals who lawfully reside in the United States, but who are not U.S. Citizens or U.S. Nationals;
 - f) Individuals in age groups likely to be eligible for or seek coverage through the Individual Exchange, SHOP or other state affordable health insurance programs;
 - g) Individuals and families with different education levels;
 - h) Individuals whose first point of contact for possible eligibility for Exchange or other state affordable health insurance programs may be when they are receiving services (e.g., at an Emergency Room or physician's office);
 - i) Individuals, families, and small employers currently without health care coverage;
 - j) Special populations (including individuals who live in rural areas, small businesses who operate in rural areas, seasonal workers, Native American Indians and Alaska Natives, etc.);
 - k) Individuals, families, and employer groups with disabilities and special needs;
 - l) Other "hard-to-reach" populations;

Exhibit A (Standard Agreement)

- m) Populations who are least likely to apply for and enroll in the Exchange programs or other state affordable health insurance programs for which they are eligible without assistance;
- n) Individuals at all income levels who are not otherwise eligible for state affordable health insurance programs or employer-sponsored health care coverage; and
- o) Other targeted groups identified through market research, focus groups and stakeholder feedback which are recommended by the Contractor and approved by the project sponsors.

C. Review and Analysis of Existing Information and Data:

The Contractor shall make use of existing surveys, data analysis and reports completed by other states, the federal government, universities and research firms, foundations, advocacy groups and others to inform the development and design of marketing, outreach and education strategies for California. The Contractor shall identify gaps and additional outreach and education strategies that are not identified in previous reports, surveys, data and/or focus group results. In addition, the Contractor shall explain the reason and rationale for the need of each additional outreach strategy.

This includes the Contractor identifying and assessing other states' lessons learned and best practices. When surveying states, the Contractor shall include states which are similar and comparable to California in its population size and diversity.

Based on the surveys conducted with the other states, the Contractor shall provide recommendations to the project sponsors on additional strategies that need to be considered and approved by the project sponsors.

Exclusion – Lower Tier Covered Transactions

OVERVIEW

In accordance with 45CFR Part 76, State contractors who receive federal funds must certify at the time of submitting a model contract proposal, that they are not debarred or otherwise excluded by the Federal government from receiving federal funding. Under this federal rule, entities who contract with the State and who are being considered for federal funding are considered to be "lower tier participants" by the federal government. Subcontractors who will receive federal funding, through the contract are also considered to be "lower tier participants".

After reading the instructions on the next page, the person authorized to submit the model contract and proposal must sign the certification and include it in the proposal package by the due date in the model contract and proposal solicitation letter. Proposals not containing the certification will not be considered for an award.
